

Class #1

Pencils

Jimmy is a 2nd grader at Foster Elementary. Today Jimmy's class starts working math problems. Jimmy's Teacher, Miss Elaine asked all the 2nd graders to bring a pencil with an eraser to class. Miss Elaine informed the kids that pencils could be purchased at the office. The office even had different color pencils. Since Jimmy's favorite color is green he was excited to purchase a green pencil. Jimmy's mother gave him \$1.00 to buy his pencil. Which pencil best fits Jimmy's needs?
